

CRYPTOCURRENCIES CAN BE ADDICTIVE

Like Gambling Addiction & Day-Trading Addiction, CryptoCurrency Addiction is a growing trend which affects many people today. Learn to spot the signs before its too late & help yourself, a friend or family member today.

HOW IT STARTS

You get the idea that you can use CC to grow your wealth and maybe even turn it into a viable business

You start by using your savings or even attempt to secure financing from lenders and investors

You start reading, researching and learning to identify strengths, weaknesses, opportunities, and threats

THE INITIAL RUSH OF IT ALL

You get excited and maybe even start to communicate your vision to friends and external parties

You become obsessed - Learning to develop financial forecasts

You constantly monitor the market to compare & measure your Currency's performance

THE DANGERS

You spend your wages & savings - desperately searching for ways to raise capital & expand

You convince yourself you have a strategy to manage growth

Your addiction starts to affect your work - losing interest in your career

THE CONSEQUENCES

Addiction may cause you to alienate your family, friends & colleagues. Losing contact with loved ones

You may lose your job or business due to your growing Crypto-Addiction

Mental & physical distress - leading to impairment
